

# SPOT CAM+

BostonDynamics

The Spot CAM+ payload turns Spot into a powerful inspection tool with purpose-built cameras and turnkey integration. Spot CAM+ features a color ring camera with a 360° field of view, for complete situational awareness while remotely operating the robot. A pan-tilt-zoom (PTZ) color camera adds a powerful 30x optical zoom, enabling detailed inspections from a distance. Integrated high-sensitivity microphones and amplified speakers enable remote auditory inspections and two-way communications with operators in the field.

## ENHANCED DRIVING EXPERIENCE

Experience an immersive driving experience. Stream video from the camera to the tablet to confidently teleoperate around your site.

## HIGH RESOLUTION IMAGES

Capture high quality color photos manually or on pre-planned missions. Get eyes on remote or hazardous environments with the PTZ camera, focusing on inspection details that matter.

## BUILT FOR DIRT AND DANGER

Drive with confidence with payload crash protection. IP65 sealed electronics for dust and water resistance enable Spot CAM+ it to go wherever Spot takes it.
